## THE BIG BAD COLONIALISTS

SELDOM has there been such an exhilarating exhibition of free-swinging, hay-making punching by a British delegate in the United Nations as in Monday's debate on colonialism. Seldom has Russia seemed so put out as when Mr. Valerian Zorin leapt to his feet to protest against Mr. Ormsby-Gore's devastating and beautifully-timed body blow when he pointed out that while Britain had given freedom to 500 millions in the last 20 years, Russia had systematically enslaved 22 millions.

Mr. Zorin in his speech enumerated a number of the worst features of colonialism. The accusations are familiar—some fantastic, others less so—but the remedy he proposes is unlikely to ameliorate the lot of the people. Independence for example will not automatically bring with it universal education or improved health standards. The "wicked monopolists" and "billionaires" may be chased out but with them goes the country's chief source of taxation revenue.

THE yoke of colonialism could be thrown off easily enough but the yoke of independence might be infinitely more crushing. For while it may allow a nation to get rid of the more despicable influences, in its midst, does Mr. Zorin really believe that to the masses the hazy ideal of freedom—if it means anything at all—is a sufficient compensation for being pushed around by a bunch of upstart self-seeking, power-hungry, feuding politicians from which they were sheltered in colonial days? The people of the Congo might give him an illuminating reply.

We are not deprecating the idea of independence, but simply feel it should be seen in perspective. Mr. Zorin has eloquently outlined the evils of colonialism but conveniently omitted to mention what would happen if in compliance with his resolution, the much maligned colonialists were everywhere to pack their bags and walk out.

Not only would no country that is at present "feeling the swish of the overseer's lash" be any better off, but the chances are that within days they would be calling the same overseer back, availing both and all. Or else Russia would install itself as the new oppressor, disguised of course as a liberator. Let there be no mistake: however evil were the motives that inspired colonialism in centuries past, they are not going to be purged by a wholesale renunciation of obligations now.

THE long and short of it— which even the Afro-Asian states recognise—is that there must be a timetable for the gradual assumption of self-government. For the newly-emergent nation is to have any hope of surviving in freedom at all, Britain has followed this policy with admirable consistency. In those countries where there is a genuine demand for it.

But surely it is not forcing freedom down the reluctant throats of territories like Hongkong which recognises that its best chance of improving the lot of its people lies in keeping aspiring politicians bottled up in dead-end institutions like the Urban Council, thereby preserving the necessary stability to ensure a thriving economy.

Whether Mr. Zorin gets his way in the General Assembly or not, the West will not be stampeded into an inglorious and shameful retreat. No scurrilous defamations of the kind uttered by the Russian delegate should blind the colonial powers to the ultimate motto of the Soviets or to their own considerable responsibilities, namely to ensure that a full measure of the liberty and freedom which Western Europe has been fortunate enough to enjoy this century is bequeathed to its weaker peoples. This is the finest gift they can give, a gift indeed which many of Mr. Zorin's own countrymen would understandably envy.

## Extensive week-long search ends in Philippines WRECKAGE OF PAL AIRLINER

## No signs of survivors reported

Manila, Nov. 30. The wreckage of a Philippine Air Lines plane, missing last Wednesday night with 33 persons aboard, was sighted today on Mount Baco, some 120 miles south of Manila.

A PAL search plane sighted the wreckage and a rescue co-ordination centre spokesman said it was verified to be the missing airliner. There were no signs of life, he said.

The wreckage was found in a thickly-wooded area near the summit of Mount Baco, about 20 miles south of Mount Halcón, where the airliner was thought to have crashed, and where the wreckage of a Second World War Japanese bomber was found earlier this week.

## Rushed

Searchers were immediately rushed to the site to further ascertain that the wreckage is that of the missing PAL aircraft.

The PAL pilot who sighted the wreckage reported seeing a Philippine flag painted on the tail of the downed plane and the marks "PIC-333," which

was reported to be the markings of the missing airliner.

Nine planes participated in today's search—four from PAL, three from the Philippine Air Force, one from the US Air Force and one from the Civil Aeronautics Administration.

The week-long search was the most extensive ever conducted in the Philippines. All in all, some 50 aircraft, four Philippine Navy ships and nearly 100 men in foot patrols participated in the search.

The PAL airliner was missing since Wednesday night last week. Its last position was reported at that time to be about less than an hour flying time from Manila. The plane was on a routine two-hour, 300-mile flight from Ilélo City to Manila.

Earlier this week, wreckage was sighted in Mount Halcón, where the plane was thought to have crashed. But the wreckage was reported to be an "old one."—UPI.

## FBI SWOOP ON NEW YORK DOCTOR

## A blow to big spy ring in U.S.

New York, Nov. 29. The Federal Bureau of Investigation today arrested the psychiatrist brother of an imprisoned spy on charges of passing wartime atomic data to the Soviet Union through an international cafe society espionage ring that has been stealing US secrets since a week after Pearl Harbour.

The seizure of Lithuanian-born Dr. Robert Sobie, 39, brother of imprisoned master spy Jack Sobie, was announced as another FBI blow to the 20-year-old spy ring that once operated under the supervision of once-executed Russian secret police chief Lavrenti P. Beria and was exposed by countercyber Boris Mirov, Hollywood movie director, nearly four years ago.

The spy apparatus that the Sobies allegedly served has been described as the biggest espionage ring exposed in the US since the atom spies Julius and Ethel Rosenberg were arrested nearly 11 years ago.

Robert Sobie pleaded innocent to the charges, standing on almost the same spot where his brother was arraigned in 1957.

## Big bail

Assistant US Attorney Morton S. Rosbin supported a plea for \$150,000 bail with a charge the the doctor had received information about a secret military project from a Washington State atomic installation in 1945, while "World War II still was being fought."

Mr. Robson said Robert Sobie was in a position to receive information from espionage agents during the war and to receive photographs from alleged co-conspirator Dr. Henry Spitz, his wife, Beatrice, whose office at a veterans administration hospital overlooked the Sandia, New Mexico atomic base.

"These photos were sent to Russia," Mr. Robson said. The Spitzes have since left the country, authorities said.

## ORMSBY-GORE WENT DOWN ON HIS KNEES, SAYS ARAB ENVOY

United Nations, Nov. 30. Britain's Minister of State, Mr. David Ormsby-Gore, went down on his knees to Ghana and Nigeria over a recent critical issue before the General Assembly, according to an Arab delegate.

Mr. Ahmad Shukairy (Saudi Arabia) ploughed the British Minister in this pose as an illustration of the growing influence of the former colonial lands in the affairs of the United Nations.

The Saudi Arabian delegate, speaking in the General Assembly debate on colonialism, said he had with his own eyes seen Mr. Ormsby-Gore kneel up before the Ghanaian and

prolonged applause followed Mr. Shukairy's intervention.

Mr. Ormsby-Gore did not ask for the floor to answer him, as he had done earlier in the Assembly when the Saudi Arabian delegate singled out Britain for particular criticism on the disarmament question.

There was no comment later from the British delegation on Mr. Shukairy's remarks.

## UN MEN SHOOT DOWN REBELS

Elisabethville, Nov. 29. UN Nigerian troops slaughtered at least 30 rebel tribesmen with deadly machine gun fire after they had been caught in a surprise ambush in Central Katanga on Monday.

Reports reaching Elisabethville today said only four Nigerian, including an officer, were injured in the clash, which occurred near the tiny township of Kabondo-Dianda, about 300 miles north of Elisabethville.

The officer was badly injured.

A Katanga Government spokesman said the bodies of 30 tribesmen had been recovered in the area of the ambush.

The Nigerians, who were travelling in a hundred-strong company from the western Katanga air base of Kamina to the rebel-territorial town of Manono in Central Katanga, had only arrived in Katanga three days ago.

A chance.

A UN spokesman said the company would continue on to Manono, scene of savage killings ten days ago, but that the injured officer had been returned to hospital in Kamina.

Meanwhile, rebel Baluba chiefs in north Katanga offered the Katanga Government a chance to withdraw all its gendarmerie forces and white personnel from the north town of Kabalo.

The chiefs said today that if their order was not complied with, their warriors would attack the town in five days.

They also threatened to attack the United Nations forces if they attempted to protect either the gendarmerie or the European personnel.

A Katanga Government spokesman said the ultimatum concerned a small number of white administrative personnel left in Kabalo, which lies about 150 miles west of Albertville on Lake Tanganyika.

He said there were also about 70 Katanga gendarmerie in the town which has an African population of some 1,200.

This is the fourth day in succession that the workers have been petitioning the bank for a postponement of the auction.

Earlier, one company was said to be willing to pay the debt on behalf of the ironworks but may not be able to raise the full amount in the short time left before the deadline.

The bank received representatives of the factory twice, yes-

terday.

The bank's spokesman told the factory delegates that the bank has neither the right nor the obligation to deal with the workers' demands.

The factory delegates maintained that as the bank has taken control of the factory assets the only way out was for the workers to talk with the bank.

During the second meeting at 5 pm yesterday, the bank gave a reply to the factory delegation composed of two managers and two workers' representatives.

The bank is willing to pay the year-end bonus totalling over \$40,000.

As to severance pay, the bank held that it was merely taking over the control for auction and was not in a position to interfere with the internal administration of the factory.

The workers asserted their families will join them in the demonstration this morning, making a total of more than 1,000 people.

If no favourable development takes place in the next few hours, the demonstrators are to

## No rise in steel prices expected tomorrow

Cleveland, Ohio, Nov. 29. The odds are against a price increase in steel on December 1 when industry wage rates go up an average of 8.4 cents an hour and total employment costs rise as much as 13 cents an hour.

Steel Magazine reported today that major producers reluctantly agree the market will not support a price increase at this time. They are caught in a squeeze between rising costs and a weak demand.

A price increase is certain as soon as market conditions warrant. The only question is the effective date, the amount and which company will make the first move. Increased probably would be limited to \$3 to \$4 a ton.

The industry magazine reported third quarter earnings of iron and steel companies averaged only 3.4 per cent of sales. Several steel makers lost money and several others failed to cover their common stock dividends. Fourth quarter results will be worse if nothing is done to offset the employment cost increase.

It is likely that a small steel producing company which is hard-pressed financially will make the first move on increasing base prices of selected products. Other companies would follow suit.

Competition from other materials and imported steel are important brakes on higher prices, the magazine said. Ford that reason, some observers predict there will be no across-the-board move.

The tonnage products such as carbon sheets, bars, plates and shapes, could best stand the increase, according to industry experts. Items that could not stand a price rise are tin plate, electrical sheets, barbed wire, nails, welded tubing, reinforcing bars, stainless products and tool sheets.

Production this week will come back only part way from

## Some waste, but no graft in Vietnam aid projects

Washington, Nov. 29. Mr Christian Herter, the Secretary of State, said today that some waste, but no graft, has been found in some U.S. foreign aid projects in Vietnam.

Mr Herter made his statement in a report to Senator Mike Mansfield, Chairman of a Foreign Relations sub-committee which investigated allegations of laxity and possible misappropriation in the aid programme in Vietnam.

The Secretary of State said waste had been found in the financing of a major highway but said that poor planning had resulted in long delays in the construction of a radio network.

His report was in two volumes. One was made public by Senator Mansfield, the other, containing classified material was not released.

Senator Mansfield, in a letter to Mr Herter, praised "the thoroughness with which your

## ALLEGES ATROCITIES BY UN 'CONGO JOHN' COMES HOME

London, Nov. 29. Congo John—Captain John Roberts, the 23-year-old Englishman who fought his own private war in the Congo—arrived home yesterday with the nightmare story of atrocities committed by United Nations troops.

The UNO troops were Negro Liberians and Congo John reported that he had information that

- They laughed, and joked as they mowed down 85 how and arrow tribesmen.
- They herded 100 prisoners into the military trucks so that 52 died in the "black holes."
- They boasted of their exploits.

Roberts, six feet tall, landed yesterday in Nottinghamshire still wearing jungle battle dress in which he led a Kasai guerrilla band through swamps and forests.

### IRONIC

After being imprisoned in a stifling room 10 feet by six by UNO Liberians, he was released four days ago and ordered to quit the Congo.

"It was ironic that I should be suspected of atrocities," Roberts said last night.

"I've indisputable evidence from people who have witnessed it and natives who escaped that UNO troops have been responsible for most of the dreadful nests."

## PLANS FOR A BIG SATELLITE CITY NEAR BRISBANE

Brisbane will one day in the future have a satellite city only 6½ miles away which will be complete with its own schools and shops and industries and where 60,000 people will live in a now almost deserted area of more than 4,000 acres stretching back from the Brisbane River.

The plan, one of the biggest and most costly ever undertaken in Australia by private enterprise will cost £8 million and will take 10 years to complete.

The plan calls for one access road and two bridges, one over the river, the other over a train line which will bring the project near to the centre of the city. Included in the plan are two golf courses.

Elm hundred acres have been set aside for industrial development, which will be so placed that the prevailing north-east and south-east winds will carry away the smoke and smell connected with industry. The Brisbane project called for a planning team of 25 people, including 20 who spent four months making aerial surveys of the area. It compares in size with the new English town of Crawley, the difference being that Crawley was a Government undertaking, and took a team of 3,400 people to plan.

Thousands of people were alarmed this week by the first earthquake ever to be recorded in Brisbane, and the effects of it were felt as far away as Nambour, Southport, Toowomba and Dalby.

Toowomba is approximately 90 miles west of Brisbane and Dalby about 120 miles north-west.

Many people rushed out of their homes when buildings began to shake, thinking that a major explosion had taken place. University experts think that the focal point of the earthquake may have been in the Mount Nebo area.

Queensland too is having its share of mixed weather. The worst drought since 1926/30 is causing severe stock losses for east Queensland where there has been no rain for months, and on Springfield station alone more than 10,000 head of cattle have been lost in the last three years.

A violent storm this week caused damage of about £2,000 near Stonehenge, 100 miles south west of Longreach, and at Winton, north west of Longreach, a freak 75 mph-per-hour wind wrecked a £5,000 light aircraft anchored to the ground with chains set in concrete blocks, by lifting it into the air and threw it on its back 30 feet away.

When Mr Menzies opened the Lucas Heights atomic energy research establishment's £400,000 engineering and metallurgy building he remarked that he was a "little cynical" about satellites circling the earth, and went on to say that he was far more impressed by the progress of scientists in other fields, in agriculture, in industry and in medicine, although he admitted that he was wrong in feeling cynical.

He said the splitting of the atom at the end of the last war had burst upon the world with a bang, and today the public still thinks of nuclear activity as belonging to war, whereas the aim today is concentrated overwhelmingly on the pursuit of peace.

The Director of the Lucas Heights establishment, said Australia was behind many countries in nuclear research because Australia is attacking the problem of smaller scale. The building opened by Mr Menzies is a vital link in the £10 million research establishments programme to find a "super fuel" for nuclear power reactors.

Washington, Nov. 29. Senator John Sparkman said today the Philippine people are more occupied with the problem of corruption in official places than any other country. The Alabama Democrat made the statement in a report to the US Senate Foreign Relations Committee on his recent trip to the Far East and Middle East. "The Filipinos at every level, officials and private citizens alike, appear almost eager to discuss this painful subject with a visitor," Sparkman said. "Stories of corruption tend to crowd out other news in the Manila press."

The senator noted that Philipino President Carlos P. Garcia has commenced a reform movement which got off to a promising start but "appears to have lost momentum."

In addition, Garcia vetoed the only strong anti-corruption measure that has been sent to his desk by the Philippine congress, Sparkman said.—AP.

'THE GREATEST  
ENGLISHMAN'  
IS 86 TODAY

London, Nov. 29. Sir Winston Churchill, the grand old man of the 20th century, celebrates his 86th anniversary of a fabulous life today with a traditional birthday party despite a bone-breaking fall two weeks ago.

The wartime Prime Minister who led Britain to its "finest hour" will take his 86th-birthday in stride as he marches toward his only unfertilized ambition—to live 90 years and become the oldest former British Prime Minister in history.

In the five years since Churchill left 10 Downing-street, his birthdays have formed a definite pattern. Usually the parties have included only Lady Churchill—his beloved "Clementine"—their four living children, and as many of his 10 grandchildren as can attend. Only rarely have outsiders been invited.

In 1957, one of these was Field Marshal Viscount Montgomery, who filmed a television tribute in honour of the day and prefaced it by calling Churchill "the greatest Englishman of all time."

Similar tributes are pouring into Sir Winston's Hyde Park Gate home this year.

For Churchill, the day will be quieter than usual. Two weeks ago, he tripped on a rug at his home, breaking a small bone in his back.

That fall—the latest in a long series of accidents and illnesses—put Churchill into a special hospital bed moved into his home, but failed to quench the indomitable spirit or snuff out the inevitable cigar.

Sir Winston's press secretary said he was making "normal progress." He was expected to get out of his bed to take part, however briefly, in the small party in his honour. Another traditional touch will be the birthday cake. It is a huge affair baked by Floris Bakers, who have made the cake an annual gift since the days of wartime price controls.—UPI.

## Health poachers

London, Nov. 29. A total of 1,503 aliens entered Britain last year for the sole purpose of getting treatment under Britain's virtually free National Health Service.

Six of these were refused entry and the rest were made to pay for their treatment, Mr. Enoch Powell, Minister of Health told the House of Commons.

Mr. Powell added, in reply to questions, that there had never been any question of people from abroad who fell ill in Britain not receiving free attention under the scheme.—China Mail Special.

CAPTAIN  
COOK'S  
LOG  
SOLD

London, Nov. 29. A log book and journal of the first and second voyages of the 18th century explorer Captain James Cook fetched £53,000 at Christie's auction rooms.

A Christie's official said the sum was a world record for an 18th century manuscript.

It was sent for sale by a retired naval officer.

Two London booksellers bid against each other and the manuscript finally went to one of them, Mr. F. Edwards. He said he was buying it for himself for the moment.

The other main bidder was Mr. Bernard Quaritch who was believed to be acting for New Zealand interests.—China Mail Special.

## Anne Sharpley: And what of strip-tease clubs new licensing bills

STRIPPING, that art to which the British have come only lately, is at the cross-roads. "It's all a matter of definition. The law of the land in displays," but no one knows what the law will be against "indecent meat" by the word "indecent."

WOULD the law call this "Valerie" outlaws them like a governess who has been interrupted in her bath by mistake, executed by "Miss Valerie."

She appears on the stage in a long, black, hooded robe, reading her breviary. In a corner of her cell is an idol like an Occidentalized Buddha.

### UNMOVED

### Britons sit tight

The lights candles to him and begins to dance in that heavy echoing way that always happens when the stage is cheap and makeshift, and the auditorium small.

Britain's bread-winners are sat in three stolid, unmoved rows before the spectacle.

The seats in which they sit without so much as a wrinkle are broken-backed and insure.

They have already seen "Miss Valerie" without her clothes; so they allow themselves neither a murmur nor a blink when the black robe falls to the floor, and "Miss Valerie" capers clumsily about with a sword which she has picked up somewhere in her cell.

The dramatic possibilities of the sword exhausted, "Miss Valerie" then menaces the bread-winners with a whip.

None of them flinches or flinches. Is this some kind of stoicism test?

British stoicism seems never to have been more admirably present as "Miss

WAS "Black Mass" indecent? How could one say? Its ineptness seemed to completely cancel out its attempts to shock. Never the less, the law will have to decide, and not simply be amused, as I was.

In KNIGHTSBRIDGE, however, where they are more articulate, the manager of a

Strip Club had no difficulty at all in expressing his views about the new proposed law.

Here in Knightsbridge, the underworld that the girls slowly removed was all of good brand make.

It was like a guessing competition from the glossy magazines where the names of the males of bra, girdle, slip and pantie had been excised.

There was certainly no rapport across those footlights.

All the girls treated their audience with a glassy indifference, and displayed their bodies as though they were sandwichboards on which no inscription was written.

Just occasionally a girl would poke out a small perfunctory tongue, rather as though she were having a medical test.

This was certainly the nearest point to provocation that the evening reached. Although all the men would have been exasperated if they had felt like box-

ing the ears of the giggling, singing, screeching off-stage performers.

THE weaker your hand the more important it is to find an attacking lead against a no-trump game contract. You will have to bent the contract through your partner's cards and you should try to lead the suit which may help your partner.

West's opening lead of the deuce of hearts is in accordance with this principle. His one face card is in that suit.

East will win that heart opening with the ace and return the

suit whereupon South will have to lose three heart tricks and two aces.

If West opens club or diamond, South will have no trouble with his contract.

If he opens his fourth best spade, East will be able to beat the hand by going right up with the ace and leading back a low heart, but the chances are that East will simply play the nine of spades and rely on a spade honour in the West hand to produce five defensive tricks.

DUCHESS OF KENT AND  
PRINCESS ALEXANDRA.

A semi-fitted suit in white wool worsted. The jacket has a bloused back caught in with a half belt.

TIME was when a man could at least call his trousers his own, when most women (with the exception of George Sand) thought the idea of wearing the pants horrifying. Then came Mrs Bloomer and her famous bicycling outfit. Since then we have never looked back—understandable in the light of some of the back views.

Like it or not, the fashion collections I've just seen for next season underline one important fashion fact: A well-cut pair of pants will soon be essential in every woman's wardrobe, whether they are denim jeans for gardening or Turkish trousers in gold lame for evening.

Most of the men who used to make suits and coats are now making tapered trousers too. Blouse manufacturers are adding matching pedal-pushers, and one skirt manufacturer I know has completely capitulated and switched his production to nothing but pants.

cut to make the most of shape legs.

**They are in wonderful fabrics.**

You can find them in priceless oriental silks or in satin, in mouthwatering colours like raspberry pink, watermelon and wild rice. If you like something gay you can find trousers, and tops, too, in a convincing "lizard-skin" which is really printed cotton, or an ocelot fur fabric that practically snarls, if you want something more down to earth you can find them in tweed, too, or double-thickness gingham in black and white check. And if you want to be absolutely up to the minute you'll buy them in a Scandinavian print—dark blues and greens blended together.

### Expensive

At last the makers have acknowledged that a woman's shape is not, and can never be, the same as a man's—so they are making trousers that are shaped to fit female curves, cleverly darted to emphasize a hand-swan waistline, cleverly

Most important of all, they are now making pants with tops to "match"—brief overblouses cropped off just below the waistline, expensive-looking silk print shirts or, best of all, jackets in exactly matching fabric which turn a pair of slacks into a new-style casual suit.

There is scarcely any woman, unless she is really outsize, who cannot wear trousers today and look good in them. A too-large hipline can be slimmed by trousers that are ankle-length, rather than mid-calf. Pockets placed slant-wise will also help to minimise your measurements. A shirt worn outside rather than tucked into the slacks will hide a thickened waistline. Another useful first-aid idea is the long-legged pantie-girdle which smooths and neatens your silhouette.

From America comes two new beauty ideas that will soon be around the shops all over the world. One, world-famous beauty house, has no specialities, too, in up-to-the-minute hair styling at the salons are issuing a "couture" passport for the woman who travels a great deal.

It contains an analysis of your favourite hairstyle complete with setting instructions and a diagram of the brush-out so that the identical style can be reproduced at any of their salons you visit—from New York to Hongkong.

Idea number two comes from a cosmetic manufacturer. He is selling his pressed powder and mirrored lipstic in exactly matching cases of mother-of-pearl edged with gilt. The pair, in a special box would make an inspired Christmas gift.

### O'Scowl's Yearly Job

*He Won't Let Anyone—Even The Shadows—Help Him*

By MAX TRELL

"COME along, McSnooze! Don't drop the ladders! Be careful with those bunches of paint brushes! Watch those

pails of paint! Keep your eyes open! Stop yawning! Hurry up!"

You'd better be polite," said Hanid, warning him, and she gave him a little pinch just to let him know in advance what she'd do if he kept on kicking,

#### He'll be polite

"All right, all right," Pixie O'Scowl finally grumbled. "I'll be more polite."

Hanid took her finger away.

Meanwhile Pixie McSnooze set herself down in the grass.

He seemed to have fallen completely asleep.

It was hard to tell whether he was sleeping or not on account of all the ladders, pails of paint and bunches of brushes on top of him.

"What are you so busy at?" Hanid asked Pixie O'Scowl.

"It's Autumn, isn't it?" said Pixie O'Scowl.

"Autumn? Of course it is," said Hanid.

At this Knarf broke in to ask

what the ladders, the pails of

paint and the bunches of

brushes had to do with Autumn.

Pixie O'Scowl pointed to the trees all around them.

"Leaves," he said.

#### Very mysterious

This sounded more mysterious than ever.

"Will you please explain to us just what you're going to do with all those ladders and pails of paint and bunches of brushes?" said Hanid.

"I wish we could help you, dear," said Hanid.

"Come on, McSnooze!" he shouted. "Wake up!"

"You'd better be polite," Hanid said to the kicking Pixie.

Knarf and Hanid said they would like to see how Pixie O'Scowl painted the leaves on the tree.

"I'll be glad to show you."

"Come on, McSnooze!" he shouted. "Wake up!"

Wakes McSnooze

Knarf and Hanid said they would like to see how Pixie O'Scowl painted the leaves on the tree.

"I'll be glad to show you."

"Come on, McSnooze!" he shouted. "Wake up!"

They rel up the ladders and Pixie O'Scowl climbed up with the pails of paint and paint brushes.

It was wonderful how quickly and skilfully Pixie O'Scowl daubed the leaves of the trees the different colours.

"I wish we could help you, dear," said Hanid.

"Come on, McSnooze!" he shouted. "Wake up!"

But Pixie O'Scowl wouldn't let anyone help him. He wanted to say that he had given all the trees in the park their Autumn colour with no one's help.

"I wish he'd carry all these and let me do the painting," Pixie McSnooze said in his sleepy way.

There was just one more

thing that Knarf and Hanid wanted to find out. It was

that piece of paper that Pixie O'Scowl had been glaring at.

Knarf and Hanid looked.

"They're pink and red and yellow and purple and brown," said Knarf.

"That's what they are in the Spring and Summer," said Pixie O'Scowl. "Just look at that tree over there. What colour are the leaves?"

Knarf and Hanid looked.

"I wish he'd carry all these and let me do the painting," Pixie McSnooze said in his sleepy way.

There was just one more

thing that Knarf and Hanid wanted to find out. It was

that piece of paper that Pixie O'Scowl had been glaring at.

Knarf and Hanid looked.

"Oh, but they get changed!" exclaimed Knarf.

"Get changed!" repeated Pixie O'Scowl.

"Not on your life," said McSnooze, who had to do the painting, or life.

"They have to be painted," said McSnooze, who had to carry all the ladders, the pails of paint

and all the brushes.

They got changed.

## TENNIS EXHIBITION BY KRAMER'S TROUPE AT CRC TONIGHT

Spalding tennis will be seen tonight at the Chinese Recreation Club when Jack Kramer's troupe, making their third visit to Hongkong, open their two-night exhibition, with play on both nights starting promptly at 8 p.m.

The professionals, arriving in Hongkong today, go into action with just a few hours' rest. The two new faces on the team are the Spanish champion Andres Gimeno and the Australian 1958 Wimbledon champion Ashley Cooper. The other two are Pancho Segura and Alex Olmedo.

Special stands have been erected at the CRC to accommodate the large crowds expected during both nights.

The two-day programme is:

### TONIGHT

#### Singles

Ashley Cooper vs Pancho Segura.

Alex Olmedo vs Andres Gimeno.

#### Doubles

Pancho Segura and Alex Olmedo vs Andres Gimeno and Ashley Cooper.

### TOMORROW

#### Singles

1st match: The two losers to meet.

2nd match: The two winners to meet.

#### Doubles

Andres Gimeno and Pancho Segura vs Alex Olmedo and Ashley Cooper.

All matches are to be decided on best out of three sets.

## Two non-League sides eliminated in FA Cup second round

London, Nov. 29.

Two non-League clubs, Bangor and King's Lynn, were eliminated from the English FA Cup today, leaving Oxford United as the only non-League side still in the competition.

Bangor and King's Lynn were both beaten in second round replay. Bangor losing 1-2 to Southampton and King's Lynn losing 0-3 to Bristol City.

Bangor were superior to Southampton in midfield, but their finishing was poor. Southampton, on the other hand, made full use of their chances.

Lack of thrust in front of goal also contributed to the defeat of King's Lynn. Bristol City played an undistinguished game, but the extra punch of their attack clinched the match.

Oxford United are away to Leicester City in the third round.

# TWO BIG RUGBY MATCHES TODAY

## Club and Police clash with Navy and Garrison in the Hexangular

By 'PROP'

Two big rugby matches are scheduled for today. These are the Hexangular tournament clashes between Police and Garrison at the Police Boundary-street ground and Club versus Navy at the Club Stadium.

Today's rugby will also see another new side making its appearance in the shape of a side from the "Diomed", the Blue Funnel training ship. The cadets will oppose an RAF Selection at the Club Stadium as a "pipe-opener" before the Hexangular game.

### Almost a clean sweep for China's table tennis aces

Hastings, Nov. 29. China's team in the Scandinavian Open Table Tennis Championships made a nearly clean sweep in the finals played tonight.

The only Chinese defeat came in West German Agnes Simon's victory over M. Kuang-hung.

Miss Simon defeated her Chinese opponent 25-23, 21-12, 21-14 in the Ladies' Singles final.

In the Men's Singles, Yang Jui-hua of China won over compatriot Chou Lan-sun 21-16, 21-15, 21-14.

Chou Lan-sun and M. Kuang-hung of China won the Mixed Doubles by defeating Yang Jui-hua and Hu Ke-ting, also of China, 21-16, 21-13, 21-10.

In the Men's Doubles, Yang Jui-hua and Chou Lan-sun of China defeated Swedes Tosi Larson and Bjorn Mellstrom 21-12, 21-16, 21-12.—AP.

### The speeding skipper

London, Nov. 29. Kent and England skipper Colin Cowdrey, 23, of St. John's, was fined £2-10-0 and had his licence endorsed at Woolwich today for speeding. It was said that he drove his Jaguar at 62-57 mph in Green Lane, Eltham.

Cowdrey who pleaded guilty, said he was sorry.—AP.

## Knocked through the ropes

A beaten man, Scotsman Bobby Neill droops through the ropes—smashed there by Londoner Terry Spinks in his successful bid to retain this British featherweight title at Wembley, London, last week.

## Points win for Archie Moore in non-title fight

Dallas, Nov. 29.

World light-heavyweight champion Archie Moore pushed his aging legs around the ring just fast enough last night to punch out a dull 10 round unanimous decision over unknown heavyweight Buddy Turman from Tyler, Texas.

Moore, making his first start since losing a decision earlier in the month to Giulio Tunnicliffe of Italy, weighed in at 189 pounds for the non-title fight.

Turman, the winner of 40 of 44 professional fights, battled Archie on even terms through the first three rounds.

But in the fourth, Moore hit the Texan with a stiff right to the jaw. Later in the round, Turman connected with his best punch of the fight, a solid left to the head.

### Drew blood

Moore began to take charge in the fifth, employing bobbing and weaving tactics to shoot lefts and rights at Turman.

Turman had a brief flurry in the seventh, but Moore easily hacked into his shell defence and walked out the barrage.

In the eighth, the champion drew blood from Turman's nose and after that, it was only a question of whether Turman would last the full 10 rounds.

Turman spent most of the last two rounds holding on.

### DEATH OF FAMOUS RACE-HORSE OWNER

Parry Sound, Nov. 29.

William J. Yates, well-known

Calgary race-horse owner,

was killed today when his car

left the road near this town

in Canada 90 miles south of Sudbury.

Yates, 50, was alone in the car. Police said it left the icy road at tremendous speed.

His extensive stable was

home and the many of the

horses carried the family name,

including such top contenders

as Percy Yates and Janet Yates.

### BORN IN ENGLAND

Yates was born in St.

Helen's, Lancashire, England,

and came to Canada to work

in the Cochrane and

Bounder areas west of Calgary.

One of his most successful

races was Percy Yates, winner

of the Canadian Derby in 1958.

Another, Yates Senior,

won the Alberta Derby a few

years ago.

Yates raced a stable in

Toronto this autumn and

brought 12 winners across the

line—the greatest number ever

won by a Western owner or

breeder in the Eastern racing

centres.

He is survived by his wife,

Janet, and several brothers and

sisters in England.—AP.

## No surprises in Australia's team for first Test

Melbourne, Nov. 29.

There are no real surprises in the Australian team to meet the West Indies in the First Test starting in Brisbane on December 8.

Richie Benaud will skipper the side, which will undoubtedly form the nucleus of the team to visit England next year.

The players from whom Australia will make their final selection were named here today as follows:

R. Benaud (New South Wales, Captain), R. N. Harvey (New South Wales, Vice-captain), A. K. Davidson (New South Wales), L. Favell (South Australia), W. Grout

(Queensland), L. Kline (Victoria), J. Martin (New South Wales), I. Meekoff (Victoria), K. Mackay (Queensland), C. C. Macdonald (Victoria), N. O'Neill (New South Wales) and R. B. Simpson (Western Australia).

**FINED  
\$2,200  
FOR  
ILLEGAL  
STILL**

A 46-year-old farmer was sentenced to a total of \$2,200 in fines or in default to serve a year and two weeks in jail by Mr. Derek Cons at Central Court this morning for running a still suitable for distilling spirits.

Revenue Inspector C. G. Kerswill told the court that at midday yesterday a party of Revenue officers raided the Lyemun area. On entering Fong's hut the officers found some mush and Chinese wine. There was a Chinese woman and a baby inside the hut but Fong's identity card was found on the table. He was arrested on his return to the hut.

A search on the premises revealed a still in the kitchen suitable for distilling spirits and a further search in the vicinity round 20 kongs of mush buried underground.

Duty on the mush and Chinese wine which had not been paid amounted to \$600.

Fong asked for leniency in mitigation saying that he had several children to support and that he had decided to give up such business.

Fong had seven previous convictions, five of which were similar to having custody of dutiable wine and one each of possession of a still and fermenting material.

**New Kowloon  
building plan**

A plan to demolish two 40-year old three-storey houses at 37 and 39, Battery-street, Kowloon, and to build a six-storey block on the site, was laid before the Tenancy Tribunal this morning.

The new building would cost \$120,000 and contain flats on upper floors and shops on the ground floor.

The applicant is Mr. Chan Yue Loeng, who is represented by Mr. P. T. Yu, of F. Zimmerman and Co.

Some of the 50 opposing tenants are represented by Mr. Charles Ching, instructed by Wong, and Co., Mr. Francis Cheung, Mr. G. Ford, of Ford, Kwan and Co., and Mr. R. Seu, of Seu and Liang.

Members of the Tenancy Tribunal are: Mr. B. V. Rhodes (President), Mr. George Davreux and Captain G. R. Terrible.

He has pleaded not guilty before Mr. Justice C. W. Reece to a charge of raping Cheung Ah-ying, the dance hostess.

He said that Cheung had appeared quite willing and it was only when a passing Emergency Unit pulled up beside the car that she complained.

Mr. W. S. W. Davidson, for the Crown, asked in his cross-examination why the hostess should claim that she had been raped if she had not.

Cheung said that she had probably wanted publicity in the newspapers.

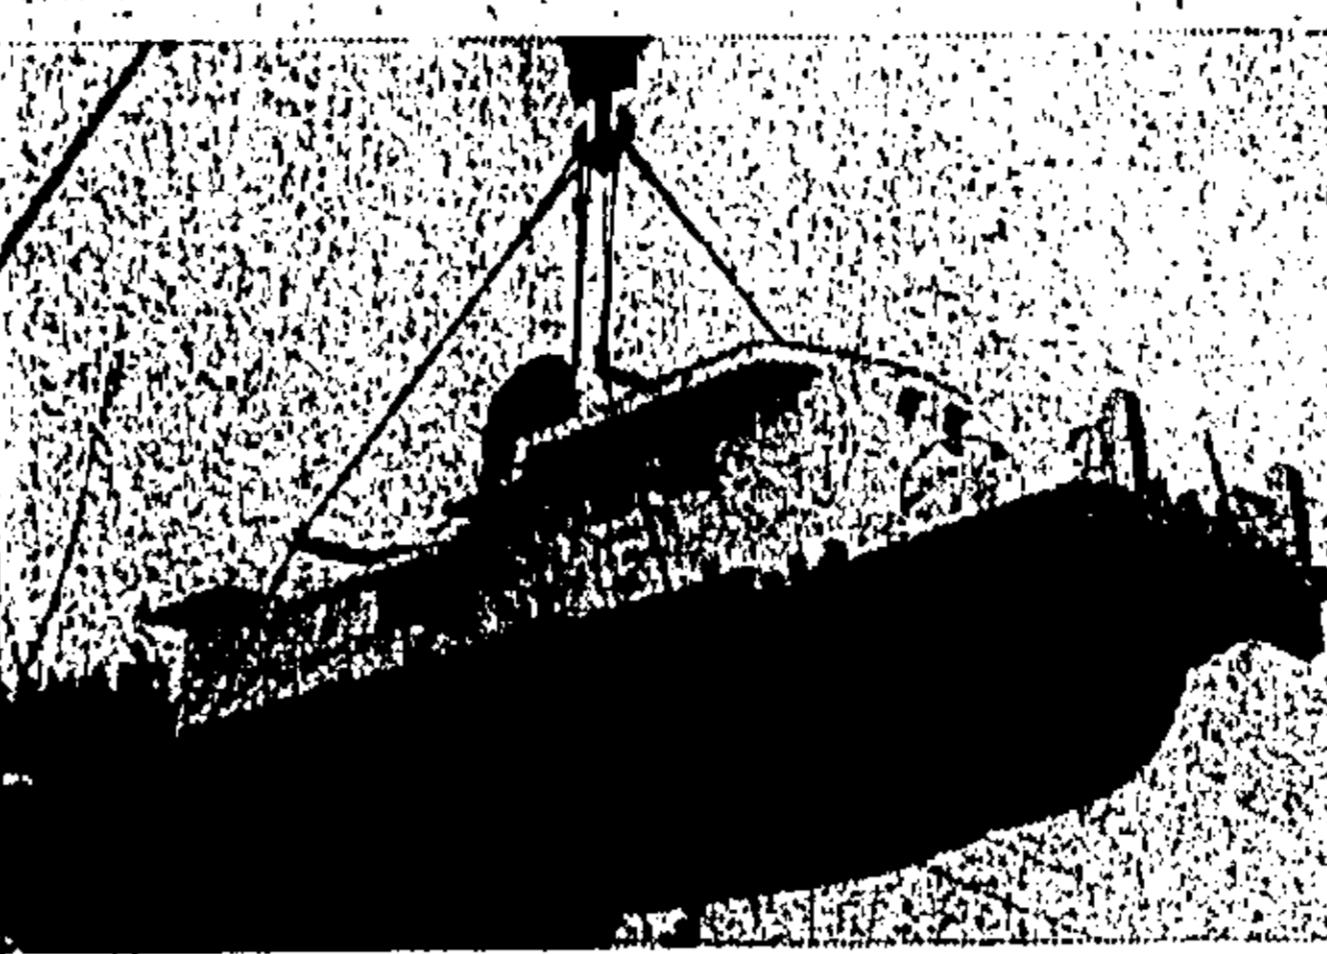

Earlier Mr. Davidson told the jury of four women and three men that the accused and another passenger had picked up the hostess outside a Causeway Bay building and offered to drive her to Wan Chai.

They drove instead to Mount Butler and when the hostess asked where they were going she was told "On a joy ride."

Later the alleged offence was committed.

Hearing continues.

**TUG FOR  
SAIGON  
UNLOADED**

A tug, weighing 64 tons is seen in this China Mail picture being unloaded from the ss Sibong by the 100-ton hammer crane at Kowloon Docks this morning.

The tug, together with a barge weighing 46 tons belong to the Shell Company in Saigon. They were intended to be unloaded in Saigon, but because of the breakdown of the floating dock available there, the vessel was sent to Hong Kong for discharge. They will be transported back to Saigon in the near future. The barge was also unloaded at the Kowloon Docks. (China Mail Photo).

November 1935

Although expenses have been cut down in every direction, the balanced sheet of the Helena May Institute presented at the annual general meeting of the sub-riding members yesterday morning shows a net loss of \$2,745.97.

Owing to depression in the Colony this year, it was decided not to proceed with plans for building a new wing to the institute.

Mrs R. M. Henderson, President of the Helena May Institute's Council conducted the meeting, assisted by Mrs G. D. R. Black, Vice President, Mrs C. E. L. Grist, Hon. Secretary and Mrs R. K. M. Simpson, Hon. Treasurer.

**Cotton talks**

Lord Rochdale, visiting Chairman of the British Cotton Board this morning met Sir Sik-nin Chau, Chairman of the Federation of Hongkong Industries and Mr G. M. Goldsack, Chairman of the General Chamber of Commerce for informal discussions on the Colony's voluntary undertaking on textile exports to Britain.

**SEVEN  
DEGREES  
COOLER**

The temperature at noon today was about 65 degrees which is about seven degrees cooler than yesterday at the same time.

This drop was due to the onset of a shallow stream of northerly winds which replaced the relatively warm easterly winds yesterday evening.

This development was caused by the intensification of a shallow depression over the eastern sea, coupled with a rise in pressure over South China.

Temperatures are likely to remain about the same for a day or two and about normal for this time of year.

It has a working staff of 400. The factory is equipped with hundreds of machine installations totalling over 1,000 tons.

One staff member estimated the total assets of the factory at \$20,000,000.

It first ran into a debt of about \$600,000 in pre-war years with the bank then under the Nationalist Government.

With the interest accrued on the loan and a further \$2 million borrowed from the bank, the outstanding sum soon amounted to \$3 million.

In the eight post-war years, the debt rolled on until it reached \$4,000,000. Then, the bank stepped in, taking over control of the assets on June 1 this year.
